

6% IRON

SpeedyGreen™

With Chelated Iron and Magnesium.

15-0-0 15% N - 6% Fe

SHAKE WELL BEFORE USING

For distribution in the State of Oregon

Used as directed, replicated tests have proven **SpeedyGreen™** will reduce, correct, and prevent iron and magnesium deficiencies in turf. **SpeedyGreen™** contains chelated iron and magnesium. **SpeedyGreen's™** natural chelating agent will not strip calcium from plant cell walls. **SpeedyGreen™** is not toxic to plants when used as this label directs. To protect from degradation, do not store in sunlight or near heat source.

Dispose of container according to E.P.A. guidelines.

Shake Well Before Using

TURF

Spray boom:

Fairways, general turf: 2-6 oz **SpeedyGreen™** in a minimum of 2 gal of water per 1,000 ft² every 2-4 weeks.

Golf greens, tees: 1-4 oz **SpeedyGreen™** in a minimum of 2 gal of water per 1,000 ft² every 2-4 weeks.

Irrigation injection:

1-2 qt **SpeedyGreen™** per acre per month or more frequently until desired results are obtained.

Lawn gun:

6-12 oz **SpeedyGreen™** in a minimum of 2 gal water per 1,000 ft² every 4-8 weeks. *Delay watering treated turf for 1 hour.*

SpeedyGreen™ is compatible with most pesticides and fertilizers except high pH herbicides and high phosphate fertilizers. Jar test for compatibility before tank mixing.

ORNAMENTALS

Root Fertilizing:

We highly recommend using **SuperRoots™** for tree & shrub root fertilizing. Information and the **SuperRoots™** label are available online at <http://www.plantessentials.biz/superroots.html>.
